Dear Parents,

Below you will find all of the information you need to start virtual classes.

MYHS Virtual Learning Toolkit

HS Learning Plan

MS Learning Plan

Weekly Planner

- The toolkit gives you all of the contact information and links for teachers and for methods of communicating with teachers.
- We will be using ZOOM meetings for live lessons
- We will be using Google Hangouts for teacher office hours, 1:1 chatting, student conferencing or tutoring
- Teachers have created Gmail addresses specifically for virtual learning. Please use the email addresses published on the teacher information document
- All class content and assignments live in Google Classroom. Each class can be accessed by using the Code for that class. Go to classroom.google.com. put in the code and you will see all of the assignments
- Students will upload all assignments through a Google form. This is a secure way for teachers to see all student assignments without having to manage hundreds of emails and attachments a day
- A schedule of classes that will be taught live on ZOOM—look for your classes and make sure you attend the live lessons
- A weekly planner document that the students have used before. This is a tool to help them write down their weekly schedule and keep track of their assignments and due dates.

We went over how to use these tools on the Zoom live conference today. If you are still confused, you have a teacher assigned to you (see the list). Ping that teacher on Google Hangouts and they will help you through whatever is confusing.

See you all tomorrow at the DGM Virtual School!

Sincerely,
Desert Garden Circulation on behalf of the MYHS Team
